Preface

Publication of documents is a part of the on-going programme of the National Archives. The National Archives is pleased to bring forth the Second Part of the catalough of the Guthi Papers. The first part covers one to ten reels. The second part covers eleven to twenty reels. These reels are under 'k' series. The total no of reel so long microfilmed has reached 206. In one year the Archives can publish only 10 reels. Following this pace of publication it would take another 20 yrs. to publish the entire catalough. Paucity of finance is the main hurdle is this work of publication. To speed up the pace of publication is the concern of the National Archives. It is happy to note that His Majesty's Government has constituted a committee to formulate a National Cultural Policy. (Dec. 28, 1991 The Rising Nepal) It would boost the publication work of the National Archives if some solid and practical suggestions are recommended by the Committee relating to the publication of cultural documents.

The Second part covers the catalough of 1913 documents and I do hope that the readers would appreciate this publication like the first.
